# Math Power-Ups

Clever ways to work it out

Stuck on a sum? Pick a power-up and try it!

## 10 Make 10

Fill up to 10 first, then add the rest.

**8 + 5 = 8 + 2 + 3 = 13**

## 7+7 Use doubles

Doubles are quick to remember.

**7 + 7 = 14**

## +1 Near doubles

Double the smaller number, then add 1.

**6 + 7 = 6 + 6 + 1 = 13**

## − Subtract by adding

Think: what do I add to get there?

**13 − 5 = ?  5 + 8 = 13**

## 3×8 Swap the order

Multiply either way round. The answer stays the same.

**3 × 8 = 8 × 3 = 24**

## ×5 ×5 is half of ×10

Times 10, then halve it.

**5 × 8 = 80 ÷ 2 = 40**

## ×9 ×9 is ×10 minus one

Times 10, then take one group away.

**9 × 7 = 70 − 7 = 63**

## ÷ Divide by multiplying

Which times fact fits?

**56 ÷ 8 = ?  8 × 7 = 56**
